

NCS Atlas 1950

The ultimate tool for colour navigation. NCS Atlas offers a complete representation of the NCS Colour Space. Each NCS 1950 Standard colour is represented by a mounted colour chip, positioned in the NCS Atlas based on its relationship to the colours in nuance and hue.

The NCS Atlas is the perfect tool for point-of-sales, colour training, customer guidance or as an office tool for colour professional.

The NCS Atlas 1950 is the National Standard in Sweden and Norway, and is referred to as the National Standard of Spain and South Africa, as well as in ASTM Standard (E2970) on the Practice for Specifying Colour.

COLOUR RANGE

- The complete range of NCS 1950 Standard colours.

COLOUR ARRANGEMENT

- Samples organized based on the position of each colour in the NCS colour space
- 40 pages of samples, one per hue
- Each page contains up to 50 samples with nuances of the selected hue
- Additional pages with neutral and near natural colours
